

PARTNERSHIP IN ACTION

Seth Swanner,
Vice President of Sales and
Marketing, Supply Technologies

"We are proud to partner with Avery Dennison to offer our global OEM customers a complete portfolio of labeling requirements and various industrial graphics application solutions. Here at Supply Technologies, we firmly believe that this strategic partnership can be expansive and deliver its full potential by providing a way to grow our business, acquire new customers, and reach new market segments."

Darrell Hughes,
Vice President / General Manager,
Avery Dennison Material Group
North America

"Supply Technologies is a global leader in Total Supply Management™ serving many key end users and OEMs. Our partnership provides a great opportunity for both companies to grow the pressure-sensitive materials segment and deliver unparalleled value to OEMs. Our joint pipeline is already robust, and we anticipate many more new OEM opportunities as a result of our partnership."

ABOUT SUPPLY TECHNOLOGIES

In 2014, Avery Dennison and Supply Technologies

began a relationship which connects Supply Technologies with Avery Dennison's full line of labels, tapes, and graphics materials. Supply Technologies' long-term strategic relationships with major original equipment manufacturers (OEMs) combined with Avery Dennison's technical material and application knowledge allow the two to work together to provide superior value in the marketplace and win.

We help our customers to:

- **Reduce total costs and resource requirements**
- **Maintain agility to and from various geographies**
- **Consolidate multiple suppliers**
- **Source from proven worldwide supplier groups**
- **Engineering and Technical support**
- **Increase productivity and ROI immediately**

Industrial Graphics solutions that work for your business.

THE AVERY DENNISON/SUPPLY TECHNOLOGIES PRODUCT OFFERING INCLUDES:

- LABELS
- PERFORMANCE TAPES
- GRAPHIC SOLUTIONS

LABELS

As the industry leader in materials for pressure sensitive labels, we offer a complete range of solutions for a variety of applications, including high-performance and durable goods labeling. Our products are designed to withstand the demands of identification, information, tracking, branding, and functional applications. In addition, they are suitable for all types of primary and secondary label printing processes.

flexible solutions for your business needs

PERFORMANCE TAPES

We design, develop, and manufacture a full range of high-performance standard and custom pressure-sensitive bonding tapes and adhesive solutions for interior, exterior, underhood/engine compartment and powertrain applications in automotive, electronics assembly and component production, appliance assembly, sign and display mounting and a wide array of general industrial applications.

GRAPHIC SOLUTIONS

A wide range of digital and screen printable, vinyl graphic and wrap materials - from architectural design to vehicle wraps and fleets to OEM decals, our graphic solutions promote creativity and deliver the highest performance for your brand. Decades of know-how and the latest technologies - like Easy Apply Technology and our Supreme Wrapping Films - allow us to help you transform ideas into impactful messages.

WE'VE WORKED WITH A DIVERSE CUSTOMER BASE. HOW CAN WE HELP YOU?

We enable our customers to consistently establish cost competitiveness in every market.
